Learning Objectives

At the conclusion of this activity participants will be able to:

- Identify the effects of spiritual and religious beliefs on patients' recovery from trauma.
- Review diagnosis, treatment and management of ADHD.
- Describe common mental health issues and subsequent treatment options that are needed to improve care in the Alabama prison system.
- Summarize treatment considerations in first episode psychosis.
- Recite the latest treatment approaches for alcohol use disorder.
- Describe gender diversity and how to provide gender-affirming care.
- Apply the mechanics of policy making to promote awareness of mental healthcare issues and reduce barriers to care.

The Alabama Psychiatric Physicians Association 2022 Fall Conference offers attendees 7 hours of instruction.
